- Angular is an open-source framework for building client-side applications HTML, CSS and Typescript, maintained by google.
- <https://angular.io>

Dependencies

<https://nodejs.org/en/download>

```
npm install -g @angular/cli
```

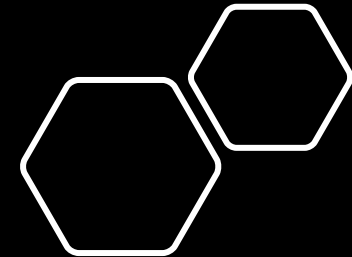

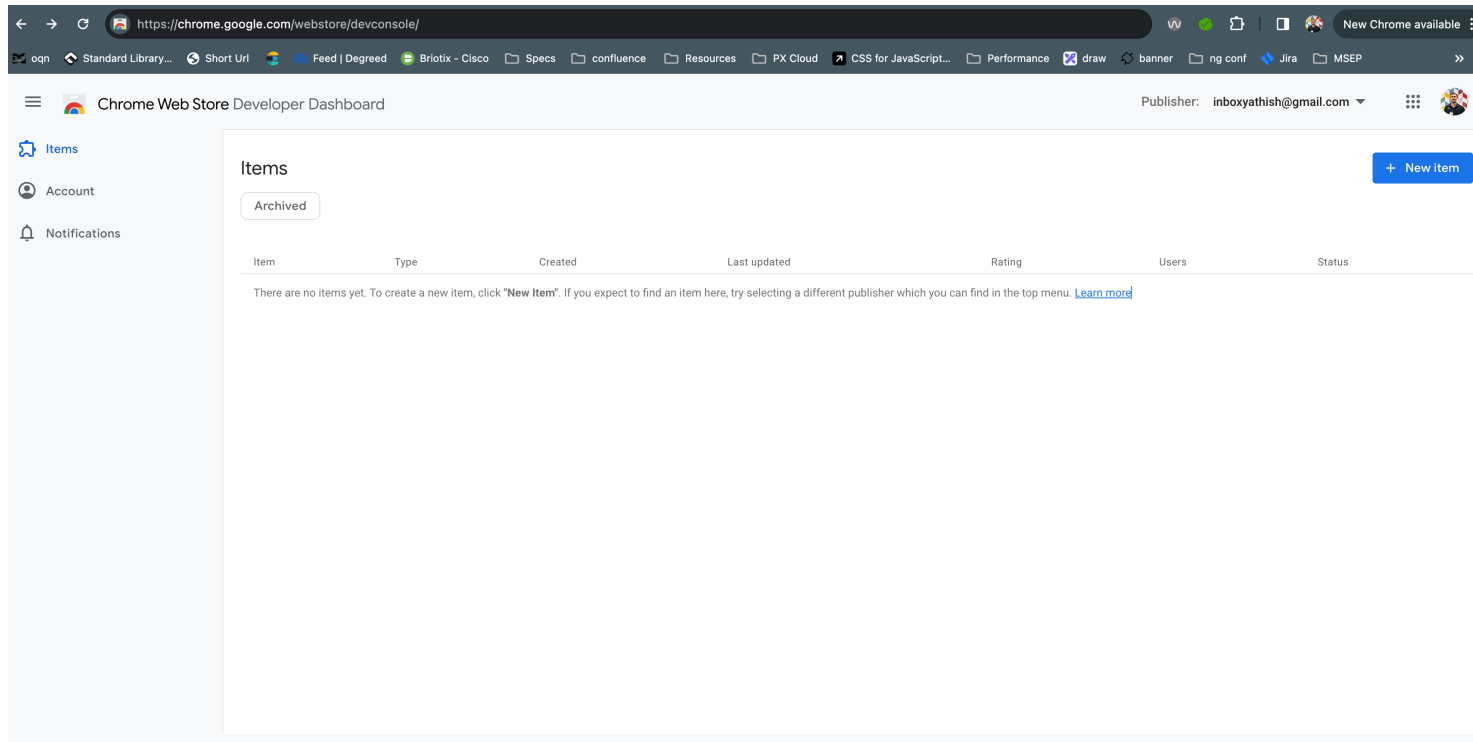

Angular App

How to convert to chrome extension ?

```
{  
  "manifest_version": 3,  
  "author": "Yathish",  
  "version": "1.0",  
  "name": "Gemini APP with shortcut keys",  
  "description": "Browser extension to open Gemini APP with shortcut keys",  
  "icons": {  
    "48": "assets/icon.png"  
  },  
  "action": {  
    "default_popup": "index.html"  
  }  
}
```
